design NASIŁOWSKA-RUSSO

Longilineo e leggero OBIQUO è il tavolino della maniglia, una scelta stilistica che dona all'oggetto la funzionalità di essere spostato agilmente, una caratteristica che diventa stilema, assieme alle numerose gambe da cui deriva il suo nome. OBIQUO è una presenza non presenza, leggiadra e spensierata, che arreda destando curiosità.

Light and slender, OBIQUO is the table with the handle, a stylistic choice that gives the object functionality as it can be moved about easily, a feature that becomes a stylema, along with the numerous legs from which it derives its name. OBIQUO is a non-presence, graceful and carefree, which will stir curiosity in any given setting.
