

AEDO

design DEBONADEMEO STUDIO
& PERSONE NON VEDENTI E IPOVEDENTI /
VISUALLY IMPAIRED PEOPLE

Aedo nasce da un processo sinestetico di coprogettazione con persone ipovedenti e non vedenti che, superando il concetto tradizionale di design del bello, propone un nuovo canone estetico basato sulla percezione. Aedo si compone di forme morbide che accolgono e guidano il corpo a un comfort intuitivo, esplora nuovi linguaggi, dove il design si percepisce attraverso il tatto, integra funzionalità e nuove modalità di interazione con l'ambiente domestico.

Aedo is the result of a synesthetic co-design process with visually impaired individuals. Moving beyond the traditional concept of beauty in design, it introduces a new aesthetic standard based on perception. Aedo features soft, welcoming shapes that intuitively guide the body toward comfort. It explores new sensory languages where design is experienced through touch, integrating functionality and innovative ways of interacting with the home environment.
