

SIR-PENT

design ANDREA STRAMIGIOLI

SIR-PENT si allunga e si riduce, si snoda e si dirama: nulla è un ostacolo per SIR-PENT che, partendo da un set base di sette moduli e un elemento jolly che fluidifica gli snodi, offre infinite possibilità di creare forme lineari, composte o articolate, in un gioco divertente e stimolante. SIR-PENT è il divano per gli ambienti che necessitano flessibilità.

SIR-PENT stretches and shrinks, winds and branches out: nothing is an obstacle for SIR-PENT, a large modular seating system that starts from a basic set of seven modules plus an all-rounder element that facilitates the flow of any combination, be it linear or articulated into soft islands. SIR-PENT can also turn into a fun stimulating game, and it's perfect wherever flexibility is a key.

MODULI J / J MODULES

J SMART

Attrezzato con pianta smart. USB, caricatore wireless e schuko sono optional.

Equipped with smart vase. USB, wireless and schuko sockets are optional.

J VIDEO

Attrezzato con porta tablet/video. USB, caricatore wireless e schuko sono optional.

Equipped with tablet/screen holder. USB, wireless and schuko sockets are optional.

J RACK

Attrezzato con portariviste. USB, caricatore wireless e schuko sono optional.

Equipped with magazines rack. USB, wireless and schuko sockets are optional.

J PLAIN

Versione pouf: seduta morbida.

Versione tavolino: piano rigido.

Pouf version: soft surface. Tray

version: rigid surface.

MODULO T / T MODULE

Tavolino in lamiera verniciata con inserto in tessuto.

Painted sheet metal side table with fabric insert.

SISTEMA DI AGGANCIO RAPIDO / CLEANING FRIENDLY CONNECTORS

CALAMITE NASCOSTE / HIDDEN MAGNETIC CONNECTORS

Sistema di aggancio con calamite nascoste nel lato interno degli elementi, particolarmente adatte per favorire lo spostamento degli elementi durante la pulizia dell'ambiente.

Su richiesta: sistema di aggancio tradizionale. Cleaning friendly magnetic connectors with hidden magnets inside of the elements, particularly suitable to facilitate the movement of the elements during the cleaning of the environment.

On demand: traditional steel connectors.

GANCI TRADIZIONALI / TRADITIONAL CONNECTOR

ITAIR APP

1. Scaricare l'app "SMART AIR PURIFIER" gratuitamente da Google play o Apple store;
2. Collegata la pianta all'alimentazione, collegarla al wifi del dispositivo Smartphone o tablet che si desidera utilizzare. Ricercare dall'elenco Reti disponibili, "ITAIR AP", inserire Password "0987654321" e confermare;
3. Effettuato il collegamento, aprire la app SMART AIR PURIFIER, cliccare sulla barra blue "Itair" e la pianta sarà collegata;
4. Sulla parte bassa dello schermo troveremo cursore a scorrimento ON - OFF per azionare e spegnere il dispositivo, mentre sulla parte alta troviamo i dati relativi ai valori percepiti dai sensori di qualità dell'aria, temperatura e umidità;
5. Scorrendo con il dito dal lato sinistro a quello destro dello schermo apriremo sulla sinistra un menu troviamo le seguenti voci:
 - HOME
 - TIMERS per impostare l'attivazione e lo spegnimenti automatico della pianta in base agli orari preferiti.
 - WIFI dove è possibile Rinominare la vostra pianta, ed è possibile collegarla alla vostra rete wifi di casa o azienda.
 - DISPOSITIVI troverete l'elenco dei dispositivi collegati all'applicazione nel caso vi siano più ITAIR collegati.
 - BIBLIOGRAPHY dove è possibile trovare l'elenco di piante idonee per ITAIR e selezionare la propria;
6. Dalla funzione WIFI collegare la pianta alla rete wifi di casa o dell'azienda.

1. Download the SMART AIR PURIFIER app for free from Google play or Apple store;
2. Once you have connected the plant to the power supply, connect it to the WiFi of the Smartphone or tablet you want to use. Search ITAIR AP from the Available Networks list, enter Password "0987654321" and confirm;
3. Once the connection has been established, open the SMART AIR PURIFIER app, click on the blue Itair bar and the plant will be connected;
4. At the bottom of the screen you will find the ON-OFF slider to turn the device on and off, while on the upper part you will find the data relating to the values perceived by the air quality, temperature and humidity sensors;
5. Swiping the screen from left to right, you will open a menu on the left and find the following items:
 - HOME
 - TIMERS to schedule the automatic activation and shutdown of the plant at set times.
 - WIFI where you can rename your plant, and you can connect it to your home or business WiFi network.
 - CHAIRGING PORTS where you will find the list of charging ports connected to the application in case there are several ITAIR units connected;
 - BIBLIOGRAPHY where you can find the list of suitable plants for ITAIR and select your own;
6. From the WIFI function, connect the plant to your home or business WiFi network.

PIANTA SMART / SMART PLANT

Itair®, un innovativo sistema tecnologico di purificazione naturale dell'aria per ambienti indoor, che agisce attraverso una pianta decorativa, che assume funzione di oggetto di servizio, amplificando le sue naturali proprietà di purificazione grazie alla presenza di un cuore tecnologico. La pianta del sistema itair® diventa un vero filtro, grazie alla presenza di microorganismi nell'apparato radicale è capace di metabolizzare gli agenti nocivi presenti nell'aria. Un vaso smart, capace di connettersi attraverso Wi-Fi ai comuni dispositivi, (smartphone, tablet, etc), e gestibile attraverso un applicativo mobile permette di:

- controllare la presenza di agenti inquinanti nell'aria che si sta respirando;
- gestire l'accensione e lo spegnimento a seconda del livello di inquinanti rilevati;
- monitorare il livello di temperatura e umidità, parametri fondamentali al fine di garantire un buon comfort ambientale.

Itair® is an innovative natural air purifier for indoors. In this system, the plant stops being just ornamental and becomes the key figure as its purifying properties get amplified thanks to a technological core. The plant becomes a real filter, thanks to microorganisms in its roots, it can actively metabolize toxic agents that are present in the air, for example the VOC (Volatile Organic Compounds). Thanks to a forced mechanical ventilation, the system increases the air flux in the roots of the plant and it increases its effectiveness exponentially.

Itair® connects to Wi-Fi and it can be managed with a proprietary app that works with smartphones and tablets. Thanks to the app, consumers will have a real-time experience:

- Real-time analysis of the pollutants in indoors spaces
- Temperature and Humidity monitor
- Analytics.

PIANTE CONSIGLIATE / SUGGESTED PLANTS

- Sansevieria Trifasciata – Variagated Snake Plant
- Spathiphyllum “Mauna Loa” – Peace Lily
- Anthurium Andraeanum – Flamingo Lily
- Aglaonema Modestum – Chinese Evergreen
- Nephrolepis exaltata – Boston Fern
- Nephrolepis oblitterata – Kimberley Queen Fern
- Aloe Vera
- Ficus benjamina – Weeping Fig
- Dracaena Marginata – Red-Edged Dracaena
- Epipremnum aureum – Devil's Ivy

- Liriope spicata – Lilyturf
- Hedera helix – English Ivy
- Dracaena fragrans “Massangeana” – Cornstalk Dracaena
- Gerbera Jamesonii – Barberton Daisy
- Rhaps excelsa – Broadleaf Lady Palm
- Chlorophytum comosum – Spider Plant
- Phoenix robelenii – Dwarf Date Palm
- Chamaedorea seifrizii – Bamboo Palm
- Philodendrum Cordatum – Heartleaf Philodendron
- Dieffenbachia – Dumb Cane
- Ficus elastica – Rubber Plant

PRESE / CHARGING PORTS

PRESE / CHARGING PORTS

Prese USB integrabili nel divano per la ricarica di dispositivi elettronici. Accessorio opzionale disponibile con supplemento.

USB ports can be integrated into the sofa for charging electronic charging ports. Optional accessory available at extra cost.

PICK-USB

USB 2xA

Ø 4.2 cm
Alimentazione 110-240 Vac 50/60 Hz.
È disponibile in due materiali: in plastica nero opaco, bianco opaco e argento e in zama metallo acciaio spazzolato, bronzo, champagne, peltro, oro satinato, nero satinato, Ral 9003 e Ral 9010.
Power supply 110-240 Vac 50/60 Hz.
It can be in two materials: in matt black, matt white and silver plastic and in, champagne, pewter, satin gold, satin black, Ral 9003 and Ral 9010 metal zamak stainless steel.

USB A+C

DOT-SCHUKO

Ø 7 cm
Alimentazione 110 - 250 V ac, 50 Hz.
Presa elettrica UK e USA su richiesta.
Power supply 110 - 250 V ac, 50 Hz.
UK and USA plug on demand.

DOT-USB

USB A+C

Ø 7 cm
Alimentazione 110 - 250 V ac, 50 Hz.
Power supply 110 - 250 V ac, 50 Hz.

WIRELESS

Ø 9 cm
Caricatore smartphone senza fili con ricamo disegnato, alimentato a 230 V.
Wireless smartphone charger with designed embroidery, power supply 230 V. Different voltage upon request.
