KOBE

design KOSMOFORM

KOBE parte dall'archetipo della palla. Volume convesso senza direzione univoca, forma che abita lo spazio con la stessa semplicità con cui una sfera trova il suo equilibrio. Il carattere vive nelle cuciture, ritmo preciso sulla superficie, come le linee che solcano un pallone.
La forza silenziosa emerge dalla qualità del pensiero progettuale, millimetro dopo millimetro.

KOBE begins with the archetype of the ball. A convex volume with no single direction, a form that inhabits space with the same simplicity with which a sphere finds its balance. Its character lives in the stitching, a precise rhythm on the surface, like the lines that cross a ball. A quiet force that emerges from the quality of design thinking, millimetre by millimetre.
